Gold's Fastest Momentum Catcher

Lightning-Speed Entry | Captures Every Momentum Burst | 24/7 Active

Strategy Overview:

The S01 XAUUSD 5M is a high-frequency momentum strategy on Gold's 5-Minute timeframe. It captures rapid momentum bursts invisible on higher timeframes. Every major Gold move begins on the 5M chart — making this the portfolio's Early Warning System. With 611 trades over 1 year, it delivers the highest trade frequency and continuous market participation.

Key Features — What Makes This Strategy Unique:

- + Multi-Layer Momentum Confirmation System
- + Anti-Whipsaw 10-Bar Candle Count Filter
- + MACD LineCross + HistSign Dual Mode
- + Day-of-Week Smart Filter (Wed auto-off)
- + RSI Zone-Based Entry Permission Gate
- + 3-Level Trailing Stop Loss System
- + Fibonacci Dynamic Take Profit Engine
- + Underlying Index Correlation Filter

Best For:

Traders who want 24/7 market activity and maximum trade frequency

Risk Level:

Medium-High | High frequency, higher activity required

The Balanced Momentum Engine

Speed of 5M + Accuracy of 15M | The Perfect Middle Ground

Strategy Overview:

The S01 XAUUSD 10M is a unique combination of speed and accuracy. On the 10-Minute timeframe, this system targets moves that appear as noise on 5M but confirm beautifully on 15M. It is the portfolio's Balance Wheel — filtering false signals while still capturing intraday momentum. With Profit Factor 1.69 and 477 trades, it delivers consistent performance.

Key Features — What Makes This Strategy Unique:

- + Precision Momentum Stacking Technology
- + Dual MACD Confirmation (LineCross Mode)
- + Sequential Candle Count Validation
- + ATR-Based Volatility Gating System
- + Linear Regression Slope Filter
- + Smart Cooldown Entry Protection
- + 3-Level Trailing Stop (10/20/30 pts)
- + Multi-Direction Permission System

Best For:

Traders who find 5M too fast and 15M too slow — 10M is the sweet spot

The Precision Trend Catcher

Fewer Trades, Bigger Wins | Quality Over Quantity | Sniper Entries

Strategy Overview:

The S01 XAUUSD 15M is a selective, precision-first trend strategy. On the 15-Minute timeframe, the primary trend direction becomes clearly visible, filtering out intraday noise. This system only enters HIGH-PROBABILITY setups — resulting in a much higher Average Win (\$59.6) vs shorter timeframes. With Profit Factor 1.99 and only 241 trades, it is the portfolio Sniper.

Key Features — What Makes This Strategy Unique:

- + High-Probability Setup Filter System
- + Sideways Market Auto-Detection
- + LR Slope Degree Calculation Engine
- + ATR Percentile Volatility Filter
- + MACD + RSI Dual Confirmation Stack
- + Consecutive Candle Momentum Counter
- + Fibonacci Dynamic Take Profit
- + Entry Cooldown Protection System

Best For:

Traders who want fewer, higher-quality trades with larger per-trade profit

Risk Level:

Medium | Selective entry system reduces overtrading

The Power Trend System — Portfolio Star Performer

Highest Portfolio P&L (\$3,118) | Profit Factor 2.40 | Market-Proven Edge

Strategy Overview:

The S01 XAUUSD 30M is the portfolio's highest-earning strategy at \$3,118 total P&L with a Profit Factor of 2.40. The 30-Minute candlestick perfectly captures Gold's real trend — not too noisy, not too slow. This is the Core Engine of the SmartifyTrade portfolio. With 39.7% win rate and avg win of \$57.5, every winning trade makes a significant contribution.

Key Features — What Makes This Strategy Unique:

- + Portfolio's Highest P&L Strategy (\$3,118)
- + Profit Factor 2.40 — Market-Proven Edge
- + Trend Momentum Pyramid System
- + Sideways Filter + ATR Gate Combined
- + MACD HistSign + LineCross Hybrid Mode
- + RSI Zone Gating (Long/Short Separate)
- + Smart Day Filter (Mid-Week Optimization)
- + 3-Level Trailing Stop Loss System

The Trend Master System

Ride Big Trends Start to Finish | High-Conviction Entries | Minimal Monitoring

Strategy Overview:

The S01 XAUUSD 1H is a classic trend-following strategy targeting Gold's major intraday trend moves. The 1-Hour timeframe shows the true market direction with very few false signals. Built for traders who want to participate in BIG moves — the kind that play out over several hours. With only 199 trades and 38.7% win rate, every entry is high-conviction.

Key Features — What Makes This Strategy Unique:

- + Major Trend Identification Engine
- + VWMA-Based Primary Signal Generation
- + Multi-Filter Confirmation Stack
- + RSI Directional Gate (Long ≥ 50 , Short ≤ 50)
- + ATR + LR Slope Combined Entry Filter
- + News-Time Avoidance Compatibility
- + Break-Even Auto-Move Support
- + Partial Close at Profit Target

Best For:

Traders who prefer large trend moves with minimal screen monitoring

The Swing Momentum System

Win Rate 44.3% | Profit Factor 2.48 | Elite Precision Entry System

Strategy Overview:

The S01 XAUUSD 2H boasts one of the highest win rates in the portfolio at 44.3% and an exceptional Profit Factor of 2.48. On the 2-Hour timeframe, Gold's key swing points become clearly identifiable. This strategy targets major movements unfolding over multiple hours — fewer entries, elite quality. With only 131 trades, every signal has passed rigorous multi-layer validation.

Key Features — What Makes This Strategy Unique:

- + Swing Point Detection Algorithm
- + Elite Win Rate System (44.3%)
- + Profit Factor 2.48 — Top-Tier Edge
- + Multi-MA Crossover Confirmation
- + ATR Percentile Threshold Gate
- + LR Slope Minimum Degree Filter
- + Sideways Market Auto-Pause
- + Underlying Market Correlation Check

The Elite Trend Rider — Crown Jewel of the Portfolio

Profit Factor 3.63 | Avg Win 103.9 | Lowest Drawdown 132

Strategy Overview:

The S01 XAUUSD 4H is the portfolio's highest-quality strategy by every measure. A Profit Factor of 3.63 means for every 1 lost, the strategy earns 3.63. With only 67 trades in a full year and an average win of \$103.9 per trade, this is true set-and-forget algorithmic trading. The 4H timeframe identifies only the highest-conviction Gold trends — moves that last days and cover 200-500 points.

Key Features — What Makes This Strategy Unique:

- + Profit Factor 3.63 — Exceptional Market Edge
- + Average Win \$103.9 Per Trade
- + Portfolio's Lowest Max Drawdown (\$132)
- + Major Trend Identification Only
- + Optimized MACD Settings (10/26/3)
- + High-Conviction Entry System
- + Win:Loss Ratio 4.5:1 (Best in Portfolio)
- + Weekly Trend Alignment Filter

Best For:

Long-term trend traders who prefer true set-and-forget algorithmic trading
